

Please note that a pedigree does not include any marriage information, any daughters' information, or any details on wives. It is intended to allow a researcher to identify a family of interest. It is NOT intended to provide all the information that is known on a family. While connections of the lines are probably correct due to the Y-DNA matches, most of the lines themselves are submitted by participants and there may be errors or omissions. Use them as guidepost and always do your own research to confirm your family line. **Please email if you see anything that needs correcting, or if any information on the site is copyrighted or misattributed information, and it will be fixed, credited, or removed immediately.**

We will list all Families, by Earliest Ancestor and Line Leader who wish to be listed. We also hope to eventually locate descendants of each family and to arrange their participation in the DNA project. Participation in the DNA Project is not a requirement for listing on this page, but we will indicate families who have a Harrison male representing them in the DNA Project. We invite you to join the project. You'll need to either be a male Harrison, or have a father, brother, uncle, or cousin who can be tested for you. It's easy, just a cotton swab on the inside of your cheek.

Not Yet Tested American Harrison Family Lines

These lines have been submitted by Harrison Family DNA Project Members. We hope that someone from each of these lines will get tested so we can connect them to their Harrison line.

The Joseph Harrison Colonial Maryland Line

Many of the descendants of Joseph Harrison and Verlinda Stone settled along the coastal areas of Maryland, Virginia, and North Carolina before the Revolution. The early part of this family is discussed in J. Houston Harrison's *Settlers by the Long Grey Trail* (1935) and *Posey-Wade-Harrison and Other Families of Maryland and Virginia*, by James W. Emison (1958).
